H GREAT CITY DIRECTORY ORGANIZATION SERVING

3,651,320 People in the most densely
populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.

Educational

"The University City" abounds in educational institutions from elementary school level to graduate school level. Public School System provides 15 elementary schools, 2 vocational schools and 2 high schools. There are private and parochial schools at all levels, college preparatory schools. Cambridge is the site of Harvard University, Massachusetts Institute of Technology and Radcliffe College. Total enrollment at colleges and universities is estimated at 15,000 students.

Libraries

Cambridge Public Library has central library and 7 branches with over 200,000 volumes available. College and university libraries are also available for research. Widener Library at Harvard University is one of the largest libraries in the world.

Recreation

Innumerable recreational opportunities and facilities available in Cambridge and in adjacent Boston. There are facilities and programs to satisfy all ages, from totlots supervised by the municipal recreation department, to concerts by the world famous Boston Symphony Orchestra and the Cambridge Civic Symphony.

General Information

The Massachusetts Bay Transit Authority provides intracity bus lines and a rapid transit system subway connects Cambridge with Boston in 8 minutes from Harvard square.

Cambridge maintains its own water supply system with three reservoirs with a storage capacity of four and one-half billion gallons. The water is soft and non-corrosive. Water rates are the lowest in the state. The system is the most complete of any public water supply in New England.

Since Cambridge is in the Heart of the Metropolitan Boston area, which includes 17 cities and 48 towns in a 20-mile radius of Boston, it can and does draw on the 2,500,000 population within the area for skilled labor. Rapid transit facilities provide excellent transportation into Cambridge.

LIVING IN CAMBRIDGE

Henry Wadsworth Longfellow's Home

"A College Community is an attractive place in which to live, and a college community which provides opportunities for research is of incalculable value to an industry engaged in whole or in part in research"—
Mayor Edward A. Crane.

A Modern Home In Cambridge

"Know old Cambridge? Hope you do.—
"Born there? Don't say! I was, too.
"Nicest place that ever was seen,—
"Colleges red and Common green,
"Sidewalks brownish, with trees between;
"Sweetest spot beneath the skies."—

—Oliver Wendall Holmes
Parson Turrell's Legacy.

CAMBRIDGE IS A CITY WHERE THINGS HAPPEN FIRST !

The first college in the United States—Harvard—was founded in 1636 in Cambridge.

The FIRST Printing Press in North America

The first printing press in North America was set up in Cambridge in 1638. Stephen Daye printed the first book in America in 1640.

The first vaccination against smallpox was administered in Cambridge in 1800 by Dr. Benjamin Waterhouse who was the first Surgeon General of the United States Army.

The first great American telescope was manufactured in Cambridge in 1850.

The first sewing machine was perfected in 1845 by Elias Howe while working in the home of a Cambridge machinist.

The first pressed glass was molded in Cambridge in 1827. Enoch Robinson revolutionized the glass making industry when he injected molten glass into a mold to create the first piece of pressed glass—a water tumbler.

The first experimental wind tunnel was built at Massachusetts Institute of Technology in Cambridge in 1913. Research at the Wright Wind Tunnel contributed greatly to the advancement of the aircraft industry.

The first concepts of inertial guidance for missiles were formulated by researchers and engineers at Massachusetts Institute of Technology. The Polaris Missile Guidance system resulted.

Many firsts in the future will result from the continuing research and development program now in progress in Cambridge. Massachusetts Institute of Technology, entering its second century, has 900 non-classified research projects now in progress.

EDUCATION IN CAMBRIDGE

Morse School

Cambridge, Massachusetts,—“The University City” offers a wide choice of elementary and secondary school facilities.

In the Public School system there are 15 elementary schools, 2 vocational schools, and 2 high schools. Shown above is one of the modern school buildings of the public school system.

The Public School system provides many services to individual pupils without charge. These services include psychological testing, psychiatric evaluation, instruction for the gifted student, the retarded, the physically handicapped in school and at home, for those with speech, hearing, reading and visual defects.

There are 11 elementary and 6 secondary schools in the parochial school system. Private schools on the elementary and secondary levels are available as are several college preparatory schools.

In the adult education area there are University Extension courses available at Harvard University and Massachusetts Institute of Technology.

Education is one of Cambridge's “most outstanding products”. It's educational opportunities attract scholars from all over the world.

PUBLIC SAFETY

Shown are four pieces of modern fire fighting equipment put into service in 1963 by the Cambridge Fire Department.

Modern equipment, radio dispatched and controlled, with well trained and efficient personnel provides around the clock protection to Cambridge residents and industry.

The 240-man Police Department covers the city 24 hours a day. Radio dispatched patrol cars respond to calls instantly and police assistance is available to any home or industry in a matter of minutes.

The Fire Department has 258 men. Protection 24 hours a day is provided with 29 pieces of modern equipment, radio equipped, and manned by trained fire-fighters. The Fire Department operates a Rescue Company service which responds to fire alarms and all other emergency cases where the special equipment and highly trained personnel of this unit can be of assistance.

CAMBRIDGE — RESEARCH CENTER OF THE NATION

Air view of Massachusetts Institute of Technology
and proposed "Technology Square" project.

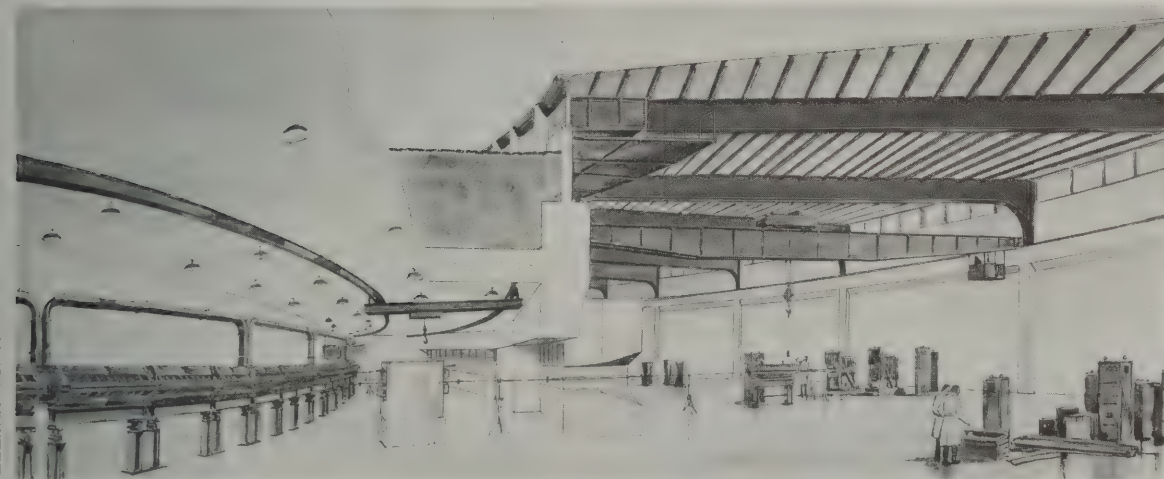

In the "Soaring Sixties" the accent is on research.

Here in Cambridge, Massachusetts, America's industry will find the nation's finest research facilities.

Cambridge is the home of world renowned Harvard University and Massachusetts Institute of Technology with their fabulous facilities for research in many fields. Cambridge is also the home of some of the world's foremost private research and development laboratories. It was in Cambridge that much of the electronics industry and other modern scientific advances were conceived, researched and developed.

The future of your industry may be here in Cambridge—a progressive and pioneering city.

Your inquiries concerning Cambridge addressed to the City Manager, City Hall, Cambridge 39, Mass., will receive prompt attention.

Cambridge Electron Accelerator

The \$11,000,000 Cambridge Electron Accelerator shown here is a joint Harvard University-Massachusetts Institute of Technology development, financed by the Atomic Energy Commission, and designed to produce the fastest nuclear particles yet achieved by man.

The multi-million dollar installation will add to man's knowledge of the properties of sub-nuclear particles and of the forces holding nuclei together.

A Survey of Recent Architectural Design Cambridge Buildings by Cambridge Architects

In recent years Cambridge has been fortunate in the abundance of new structures of high architectural quality which will contribute to the aesthetic appearance of the City for future generations. While an exhaustive list of outstanding new buildings would more than fill these pages, special recognition is limited here to those designed by architects living, working or teaching in Cambridge. Even on this restricted basis, however, it has not been possible to include all such structures worthy of mention.

← **TECHNOLOGY SQUARE** is a master-planned, four building office/research center located adjacent to the campus of the Massachusetts Institute of Technology. The first two buildings in the center are completed, occupied, and tax paying.

The fourteen-acre site, formerly the location of the Lever Brothers plant and the Rogers Block of the Cambridge Redevelopment Authority, is being developed jointly by Cabot, Cabot & Forbes Co. and M.I.T.

Technology Square represents an effective combination of resources involving an educational institution, a business enterprise and the City of Cambridge. As a result of these cooperative endeavors, Cambridge has received two awards for Technology Square: The Ward Melville Silver Medal for Community Improvement and the Award of Merit in Urban Renewal design from the Federal Housing and Home Finance Agency.

TECHNOLOGY SQUARE....a five-minute walk to the Greater Boston rapid transit system....a three-minute drive to new expressways serving the metropolitan area....a ten-minute drive to downtown Boston's commercial and retail districts....a fifteen-minute drive to Logan International Airport.

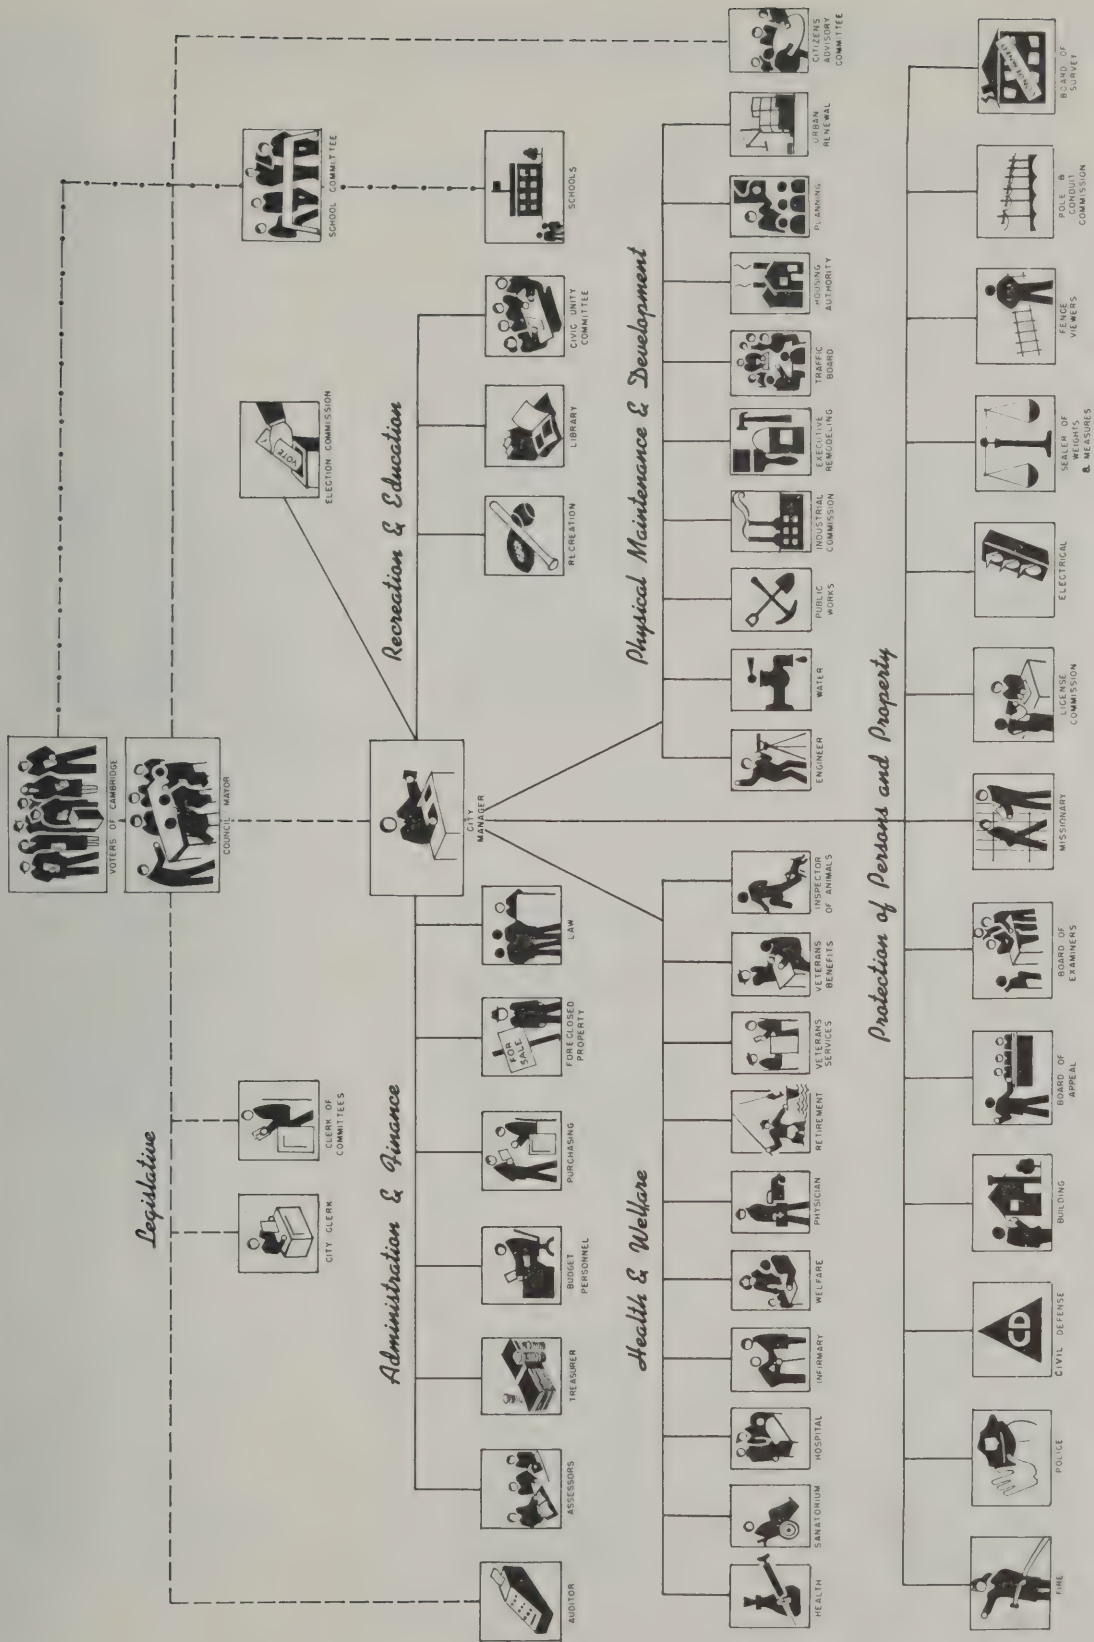

← **545 and 575 TECHNOLOGY SQUARE**, the first two buildings in the Center, overlook a central landscaped plaza and feature adjacent parking areas. Both buildings are completely leased. Major Tenants include: Harvard Trust Company, The Lumber Mutual Fire Insurance Company, International Business Machines, Institute of Naval Studies, National Aeronautics and Space Administration, and Tech Square House Restaurant.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

(All that's left that's good)

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing

Making a total of **59% to 66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THE LOUDON PHILOSOPHY OF ADVERTISING

We actively and aggressively promote the use of advertising because of our firm belief in its ability to achieve results at a cost lower than other methods.

•

We believe that every advertisement we produce for a client is important and should be as effective as is possible within the limitations of reasonable production costs.

•

In all cases, substance takes precedence over form. Every ad has a purpose that must never be compromised for aesthetics or self-gratification.

•

Wherever available, empirical advertising data will count as stronger evidence than subjective personal opinion.

•

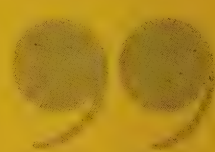

Our purpose will always be to create interest and preference for the product advertised rather than the advertising itself.

•

Every product or service has a degree of excitement and interest connected with it. It is our job to capture this excitement and interest ourselves and to transmit it to our clients' prospects.

•

We believe that advertising can and should have an effect upon our clients' sales, and we are vitally interested in any information having to do with tangible results or the lack of tangible results on every campaign.

Loudon clients include these Cambridge companies: The Blanchard Machine Company; Carr Fastener Company; Comstock & Wescott, Inc.; George B. Graff Co.; Harvard Trust Company; Simplex Wire & Cable Co.; United-Carr Incorporated; and Wheelock, Lovejoy & Co., Inc. For up-to-date facts about Loudon Advertising, write for a copy of our Annual Review. Or talk to any of our Cambridge clients for an objective opinion about the quality of our work.

TELEPHONE 864-3150

Cambridge 38, Mass.

The American Friends Service Committee was founded in 1917. It undertook extensive relief and reconstruction work in Europe during and after the First World War. Since then it has carried into action through relief and many other programs, Friends' belief that men of all nationalities and colors and religious persuasion can live peacefully together. This work has taken it into more than 35 countries around the world.

The Committee now works in 26 countries besides the United States. Its activities draw in thousands, as individuals, in large and small groups, at local, national and international levels.

Contributions from those who share the Committee's aims make this work possible. The Committee's total cash budget for the year ending September 30, 1965, is \$4,600,000. Continued support will make it possible to raise this budget to carry on the programs which the Committee has undertaken.

"HOLD THINGS TOGETHER"

The billions of special-purpose fasteners made by DOT *do* hold things together, of course; that is their basic function. But they do *more* than that. They help speed assembly, cut costs and improve product performance in many different industries . . . electronics, automobiles, aircraft and missiles, furniture, clothing, leather goods, to name only a few.

For the electronics industry particularly, United-Carr not only makes fastening and connecting devices in volume quantities but also a tremendous variety of switches, sockets, shock

mounts, indicator lights and other special assemblies. Two of United-Carr's divisions have also become important suppliers of etched and stamped electronic circuitry.

Widely experienced design engineering staffs are backed by complete facilities for large-scale production of intricate metal stampings, plastic components and composite assemblies of metal and plastics. Twenty-four up-to-date plants in the U. S., Canada, Great Britain and Australia.

THE LOGICAL PLACE
TO LOOK FOR IT

Think of the **DIRECTORY** when you are looking for names and addresses and street locations. It's the logical and quickest place to get the information you want. Use the **DIRECTORY**.

**bars, billets and forgings
in sizes, shapes and treatments for every need!**

Wheelock, Lovejoy & Company, Inc., can fill your alloy steel requirements promptly. This applies to both standard AISI and SAE steels and to our own HY-TEN steels — “the standard steels of tomorrow”. Take advantage of our seven strategically located warehouses. All of them can supply these steels in the form and quantity you need. Every warehouse, too, is staffed with expert metallurgists who are ready to serve you.

Write today for your FREE copies of Wheelock, Lovejoy Data Sheets. They contain complete technical information on grades, applications, physical properties, tests, heat treating, etc.

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

. . . Patronize Them

THE SHORTEST DISTANCE BETWEEN
TWO POINTS IS
— A STRAIGHT LINE —

Your City Directory is the Straight Line medium to bring Your Merchandise and Your Services direct to the buyer.

. . .

There is no running around in circles before finding the commodity or service the buyer wants to purchase.

. . .

The Buyers Guide and the detailed listings in your City Directory form the STRAIGHT LINE to your needs.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over nineteen years of age, or any person employed.

Information—as to the occupation of each person over nineteen years of age, or any person employed.

Information—as to the address of each person over nineteen years of age, or any person employed.

Information—as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to the names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person is a “householder” (h) or “resides with” (r).

Information—as to what is the wife’s name of each married man.

Information—as to what was the husband’s name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

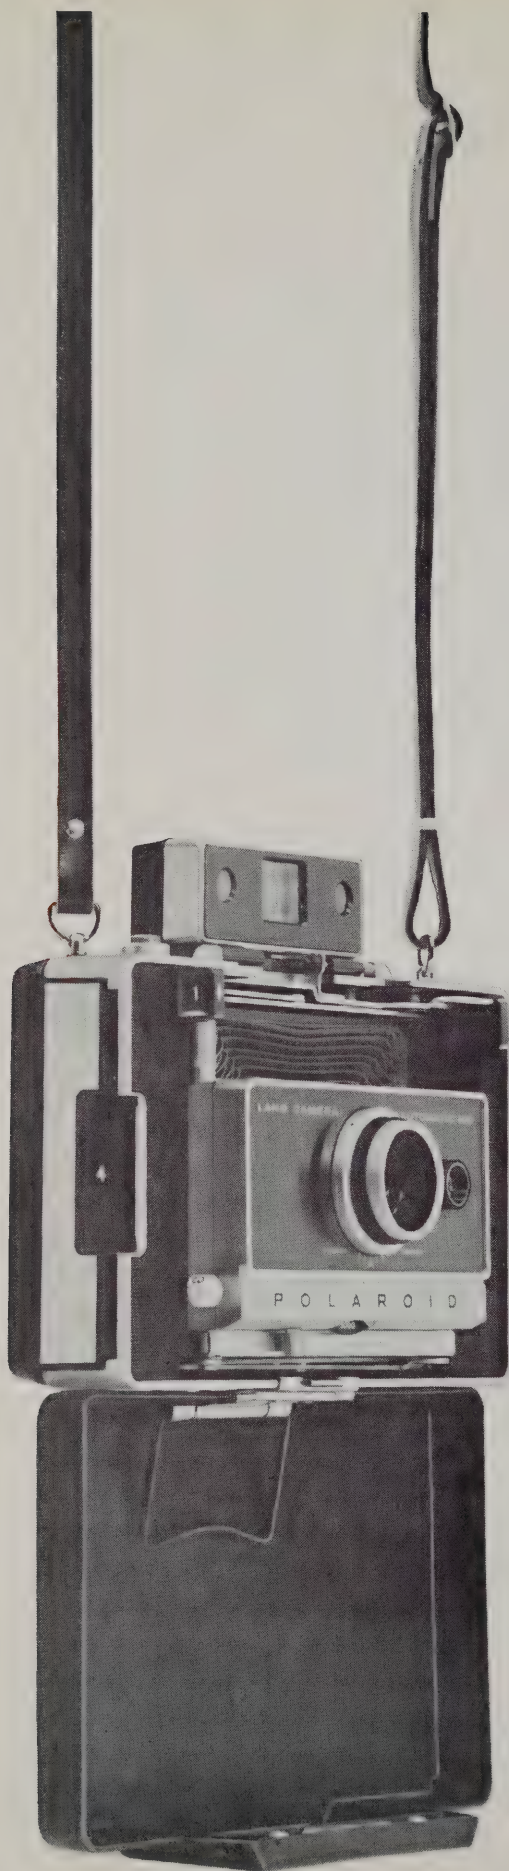

Information—as to those seeking prominence and prestige by display type.

— Finally —

Our Ideal

“If it has a name and location — it’s here”
